

# UNIVERSITY OF NEBRASKA STATE MUSEUM

## VIRTUAL FIELD TRIPS

### *Fossil Finds in Volcanic Ash*

Visit “a wonder of the natural world” without leaving your classroom.

**Fossil Finds in Volcanic Ash** is a 30-minute virtual field trip (VFT). Participants will tour Ashfall Fossil Beds where they will observe prehistoric animals preserved in place. Your group will learn about the volcano in southwest Idaho that blanketed the north central area of Nebraska with glassy volcanic ash 12 million years ago, how this catastrophic event resulted in the death of much of the wildlife, and how their fossil remains were discovered and continue to be researched.

An educator will take tour participants into the Hubbard Rhino Barn, a unique site that maintains the complete fossil skeletons of prehistoric rhinos, horses and other wildlife right where they were found, in the volcanic ash.

Through examination of Ashfall fossils, participants learn more about paleontology and geology. The virtual field trip is designed to fit within your schedule and curriculum needs.

### *Dates and Pricing*

Virtual Field Trips can be schedule mid-March through mid-November.

Tours are offered Tuesday–Friday.

#### Tour Pricing

In Nebraska:	\$100 (Schools, Libraries, Educational non-profit)
Outside of Nebraska:	\$125
CILC Member:	\$125
CILC Premier Member:	\$115
